Silicon Metal From Argentina; Final Results of Antidumping Duty Administrative Review and Termination in Part

AGENCY: Import Administration, International Trade Administration, Department of Commerce.

ACTION: Notice of Final Results of Antidumping Duty Administrative Review, and Termination in Part.

SUMMARY: On August 9, 1995, the Department of Commerce (the Department) published the preliminary results of its administrative review of the antidumping duty order on silicon metal from Argentina, and its termination in part (60 FR 40566). Since

petitioners withdrew their request for review of Andina Electrometallurgical (Andina) within 90 days from the date of publication of the notice of initiation in accordance with 19 CFR 353.22(a)(5), and no other party requested a review of Andina, we terminated the review with respect to this firm. This review covers Silarsa, S.A. (Silarsa), a manufacturer/exporter of this merchandise to the United States. We have now completed this review and have continued to assign to Silarsa the BIA rate of 24.62 percent for the period September 1, 1993 through August 31, 1994.

We gave interested parties the opportunity to comment on the preliminary results. Based on our analysis of the comments received, we have concluded that Silarsa's margin should remain at 24.62 percent

EFFECTIVE DATE: December 15, 1995.

SUPPLEMENTARY INFORMATION:

Background

On August 9, 1995, the Department published in the Federal Register (60

FR 40566) the preliminary results of its administrative review of the antidumping duty order on silicon metal from Argentina (56 FR 48779, September 26, 1991). The Department has not completed this review in accordance with section 751 of the Tariff Act of 1930, as amended (the Tariff Act).

Applicable Statute and Regulations

The Department is conducting this administrative review in accordance with section 751 of the Tariff Act. Unless otherwise indicated, all citations to the statute and to the Department's regulations are in reference to the provisions as they existed on December 31, 1994.

Scope of Review

Imports covered by this administrative review are shipments of silicon metal from Argentina. During this less-than-fair-value (LTFV) investigation, silicon metal was described as containing at least 96.00, but less than 99.99 percent silicon by weight. In response to a request by petitioners for clarification of the scope of the antidumping duty order on silicon metal from the People's Republic of China (PRC), the Department determined that material with a higher aluminum content containing between 89 and 96 percent silicon by weight is the same class or kind of merchandise
